An Investigation by Police Commissioner Hayden-Crowds Visit the Viking Ship-Saller Hansman Resense a Young Lady.

Capt. Magnus Andersen and the five other arrested vikings got happily out of the clutches of the Brooklyn police yesterday. They preat 8 o'clock in the morning, when Justice Tighe, following the advice of Mayor Boody, was to hold an examination on the charge of intoxication on which they were arrested after the reception given in their honor by the Norwegian societies Sunday evening, and upon which they were imprisoned. first in the Hamilten avenue police station, and afterward in the la court sweat box.

The vikings were under the immediate convoy of an American saller, Commedere S. Nicholson Kane, who carried a great roll of newspapers in his left hand, while he grasped a walking stick as big as a club with his right. and of Lawyer August Reymort. For escort ther had a crowd of Norwegians and Swedes who wished to show their sympathy and indignation by their presence. There were also a lot of reople in the court room who were curious to see how Justice Tighe would get out of the scrape. The latter were somewhat disappointed, for there was not much to see, the proceedings being exceedingly brief and

After the vikings had waited five minutes Justice Tighe, his ruddy cheeks flushed very red, dawned upon the scene. The vikings ranged themselves in front of the desk when their names were called off and kept their eyes unflinchingly on Justice Tighe. The name of Michae J. Dunne, the driver of the police patrol wagon, who made the charge of intextention, was next called out, but Dunne

police patrol wagon, who made the charge of interication, was next called out, but Dunne did not appear. The Police Department is not represented." The Police Tighe said. "The prisoners are discharged."

This decision did not satisfy Lawrer Reymert. "Of course," he said, addressing Justice Tighe, "we take this discharge as a simple set of justice, not as an especial set of grace on the said." Justice Tighe rejoined, writing "Discharged" on the complaint.

As Mayor Boody and Police Commissioner Hayden have put themselves on record as holding the arrest of the vikings unjustifiable, it is probable that the policence necescrate will be disciplined, but so far no formal charges have been made. It is said that Hugh MeLaughiln, the Democratic leader, expressed himself in vigorous terms when he learned of the arrest, and that he strongly advised the prompt calling down of Justice Tighe.

Police Captain Driscoll of the Hamilton avenue station has made a repectal report of the case to Commissioner Hayden. The latter refuses to make it public at present.

a lady to use or for a man unfamiliar with boats.

One young lady fell from it. An old gentleman and his daughter were disembarking, and the young lady was all excitement, probably due to the weird tales told her by Hans Hansman, one of the sailors. She was part way down the ladder when she turned to give Hansman a fan she was carrying. Hansman reached for the fan, and in doing so released his hold on the young lady. The fan went into the water and the girl stumbled into the boat. She lost her balance and fell overboard. Hansman saw that she was going to fall and jumped into the boat almost as quick as she did. His arm was around her just as she struck the water and he managed to pull her back in the boat, although the exertion filled it half full of water. The cowardly beatman deserted the boat and climbed aboard the Viking and dropped the painter. She was taken aboard the viking again after a few moments of rest, which time her father divided between thanking Hansman, cursing the boatman, and asking his daughter why she fell overboard. Another boatman was called and the two went ashore, the young lady apparently none the worse for the ducking. Some one had recovered the fan and Hansman waved it in answer to the young lady's handker chief signal until she disapthe ducking. DRILLING IN INTENSE HEAT. Boy, Flower Leaves the Seventh Discussi

the Proposed Visit to Chicago. STATE CAMP, June 21 .- Gov. Flower's visit to the Seventh Regiment ended this morning. For one thing he left the men discussing his suggestion that the Seventh should be in Chicago on Sept. 4-New York day.

Whether the regiment would go, even if the money needed were in hand, is far from being certain. Seventh men are busy men, and time is valuable to them. Col. Appleton would hardly like to go with less than 600 men, and that is a lot to get together for an absence of

a week or ten days.

The Governor got rid of the red tape and guards that had shut him off from the common herd as soon as the concert was over last evening, and started out as a plain American citizen to see the sights. He fetched up finally where Col. Appleton and his officers were discussing military sandwiches and such things, and there he proved himself a soldier of capacity. He left at taps and was up to-day

were discussing military sandwiches and such things, and there he proved himself a soldier of canacity. He left at taps and was up to-day with the morning gun.

The heat to-day was more oppressive than on any of the preceding days. There were no cases of heat prostration which required the care of the doctors, but a good many men dropped quietly outland were excused. All the same, there was a hall game on the green between members of the New Jersey Athlette Association who are in the Seventh and the men of Company F. The game ended at the fifth inning, when the afternoon guard mount began, with a tie score of 0 to 0.

There were lightnings playing across the heavens when the band struck upthe formation must for parade, but though there were deep rumblings close by from the clouds when the evening gun was fired and a little rain was falling, it was not enough to spoil the parade. The lines were formed in a new manner to-night. The battalion formed all one line, along the color line, broke from the left flank into a column of platoons and countermarched, formed for the parade in a line of platoon columns, forming on the left column. KILLED IN A SALOON FIGHT.

A Man's Neck Broken by James Purcell, a Driver Employed by the City. James Purcell, a driver in the Street Clean-

ing Department, fought with John O'Brien of 352 West Twelfth street, in Patrick Mulry's saloon at Washington and West Twelfth streets on Tuesday night. Purcell threw O'Brien down heavily, after which bystanders separated the men. O'Brien became unconscious and was taken to St. Vincent's Hospital. It was found there that the man's neck was broken. He died at 5:40 o clock yesterday morning. O'Brien was 22 years old and had not done work of any kind for a long time. Furcell was arrested upon a charge of assault, but when he was arraigned in Jefferson Market Police Court yesterday this charge was changed to one of homicide, upon which he was remanded without bail.

Turcell, who is 35 years old and lives over the saloon where the fight took place, asserts that he was not to blame for O'Brien's death. He sars the man attacked him, but that he neither struck back nor tried to hurt him, and in the struggle only used force enough to protect himself. O'Brien down heavily, after which bystanders

the Couple-Actress Maids Craigen's Sult, Maida Craigen, the actress, appeared yesterday before Judge Bischoff of the Court of Comnon Pleas in her action for an absolute divorce from Arthur Ernest Buchanan, who is known on the stage as Arthur Falkland. There were just five persons in Miss Craigen's party. Buchavan did not defend, and there were no

When called as a witness by her counsel. Jesse Grant Roe, Miss Craigen said that she married Buchanan in London on March 25, 888. They were married by a Registrar, and Mrs. Louise Chandler Moulton, the poet, was a

An actor named Wagner, and Robert Cowen. a stage carpenter, testified that Buchanan has been occupying the same rooms in different cities with Maude Edna Hall, who was in the same company about two years ago, and they have since acted together. Wagner testifled that Buchanan had said he would marry Miss Hall when his wife got the divorce which he expected.

Judge Bischoff intimated that the evidence was sufficient, and asked for findings and a decree to be submitted in blank, as usual. Miss Craigen is a Boston girl. She made her debut there in 1887, and has played leading parts in the companies of Edwin Booth, Sal-

vini. Lawrence Barrett, and Keene. Affidavits showing such a remarkable state of affairs have been presented to Judge Me-Adam of the Superior Court on a motion of Hattie Batonyl to set aside the judgment for divorce which she got on Dec. 13 last from Aurel Batonyi, that the Judge has ordered the parties to appear before him for oral examination to-morrow. Judge McAdam says he can form a better opinion of their stories when he sees them.

Mrs. Batonyl says they were married on March 30, 1891; that they made several trips to Europe together and were happy until last December, when her husbrad said his parents had become incensed at his marriage without their knowledge, and because he had married as a count, whereas he is not a count.

They threatened to disinherit him. He said if she would consent to a divorce he would pay her counsel and take act to Europe and marry her before his people. She says he bought a steamer chair, robes and other articles, and tickets for the voyage, which they were to take after the divorce. She says she sued him on evidence he furnished, and the day after getting the decree he sent her word that he had trapped her, and would not marry her again. He had given her two \$5,04s notes, but she says he got them back after the divorce and destroyed them. She declares that he has repeatedly declined to marry her again. Batonyi says, in reply:

"My relations with the plaintiff, which I am conscious are blameworthy. I shall nevertheless faithfully describe, in order that your Honor may judge me as I am, and see that, instead of the plaintiff being the victim of fraud. I have been the person who has suffered the injustice, silently and without a murnur, and December, when her busbrnd said his parents

A BROTHER-IN-LAW CO-RESPONDENT Revelations in the Suit of Bruggist Herbert for Absolute Divorce.

The suit of Druggist Joseph R. Herbert of Brooklyn against Anna Bertha Herbert for absolute divorce was on trial yesterday before Judge Van Wyck in the City Court in Brooklyn. The co-respondent in the case is Karl Osear Herbert, a brother of the plaintiff, Tho couple were married eight years ago, and lived happily until the summer of 1892, when Mrs. Herbert went to Grossanheim-on-the-Main, in Germany, to visit her husband's relatives. A letter which Mr. Herbert received from his wife a couple of months after her departure, and which was put in evidence, was relied upon to substantiate the allegation in the suit. In it she wrote: "DEAR JOSEPH: In my letter to-day, which perhaps will be my last. I have to communicate something unheard of. I had never thought I something unneard of. I had no ser thought, could sink so far. I must write it to you myself. It disturbs my rest day and night. Would you had listened to me last fall. You would not understand I then foresaw the danger already, and thought it would come to this. I would not be among the living now if it were not for my children."

Here she makes a confession regarding herself and her brother-in-law. Continuing she writes:

"Do not judge me too harshly, for the sake of our children. If you had considered the matter better and kept me with you, it would never have come to pass. No one knew anything about it so you can do with me as you like. We about it so you can do with me as you like. We can move to some place where no one knows us. If you are toe angry to do as I want, nothing remains for me to do but seek death. I cannot do this without publicity; then all would become known. Why must I meet such a fate I I think the punishment has already overtaken me because I did not cling to my faith. Again pardon your unhappy Anna. The children send many kiesse.

Mrs. Herbert came back to America at the roquest of her husband, and made, it is alleged, another confession, but her husband rofused to forgive her.

Judge Van Wyck adjourned the further hearing until to-morrow. FRANCIS SPIES A SUICIDE

Men's nation to-night, the first Wednesday open night of the Pair, the Council's order for keeping open continuously after dark going into effect to-day. The feature to-day was the opening of the Ferris wheel on the Milway. and hundreds of people piled into the cars at 3 o'clock and were swung through 825 feet of atmosphere, yelling and shouting, hurraling, and clapping their hands as they went. The lowa State hand huddled into one big car. blew inspiring notes through their horns, and champagne corks flow in every direction. Such a jolly lot of merrymakers even the Midway has not seen before.

It was the formal opening of the big wheel and 10,000 people were invited. Half a dozen men were down for speeches, which were made from the east platform. President Hunt of the Ferris Wheel Company, Major Handy, Inventor Ferris, and Mayor Harrison did the talking.

The Ferris wheel is to the Columbian Exposition what the Eiffel Tower was to the Paris Exposition of 1889. It has not yet become as widely known as that sky-plercing structure. but there is no doubt that it will be in time. It is called by engineers who are supposed to be competent to pass judgment even a greater engineering feat than the Paris novelty. Whatever it may be to the engineers to the ordinary every day visitor to the Midway who throws bachis head to look at the top it is a penderous, great network of iron. original in the idea the inventor has carried out. It is little more than a magnification of the ordinary "razzle-dazzle" of the county

fair. There are thirty-six cars on the wheel, each capable of comfortably seating forty people. The cars are 27 feet long, 13 feet wide, and 9 feet high, and each one weighs thirteen tons. The wheel, with its passengers, weighs 1,200 tons. The whole thing rests on two pyramidal towers at the axis. The towers are 140 feet high, 40 by 50 feet at the base, and 6 feet high, 40 by 50 feet at the base, and 6 feet square at the top. Each tower has four feet resting on a twenty-foot concrete foundation. Underneath these are crossbare of steel. The motive power comes from a 1,000 horse-power steam engine under the wheel. The wheel is moved by cogs on the periphery, passing over a chain that looks like a mammoth bicycle chain.

Germany's collective exhibit of wines in the southern court of the Horticultural building was opened this afternoon. Herr Weermuth, the German Commissioner, and others made addresses.
